\* Read the following passage and choose the best answer for each of the following questions (1,25 points)

Some doctors think that you should drink a glass of water each morning. You should drink this water first before doing anything else. The temperature of the water should be similar to body temperature; neither too hot nor too cold.

Why should you drink this water? Water helps your body in many ways. It helps clean out your kidneys. It prepares your stomach for digestion. Water can also help your intestines work better. After drinking water, the intestines can more easily take out nutrients from our food. Water also helps us go to the bathroom more easily.

Scientists suggest that people take in 1,600 milliliters of water each day. But don't drink all of that water in one sitting. If you do, your kidneys will have to work much harder to eliminate it. It's better to drink some in the morning and some in the afternoon. Some people think it's better to drink between meals and not during meals. They think water dilutes the juices produced in our stomachs. This can interfere with normal digestion.

Are you drinking enough water every day? Check the color of your urine. If it is light yellow, you are probably drinking enough. If your urine is very dark yellow, you probably need to drink more water. A little more water can make you much healthier.

7. Why is it helpful to drink water in the morning?  
A. Your kidneys will work harder.                      B. Your intestines will work well.  
C. Your juices will be diluted.                      D. Your urine will be pale yellow.
8. It is better to drink between meals because .....  
A. You eat enough food                      B. You don't dilute stomach juices  
C. Your urine will not smell bad                      D. You don't overwork your kidneys
9. Why is dark-colored urine a sign to drink more water?  
A. It shows our body is healthy.                      B. It means our kidneys are working too hard  
C. Less water makes the color darker.                      D. It is the same color as our digestive juices.
10. What could be the best title for this reading passage?  
A. "Drink Water, Not Soft Drinks"                      B. "Drink During Meals"  
C. "Drink Between Meals"                      D. "Drink Enough Water"
11. Which of the following is NOT a reason to drink water?  
A. Your intestines will work well                      B. To get more nutrients  
C. To clean out your kidneys                      D. To dilute your stomach juices

\* Complete the second sentence so that it has the same meaning as the given one (1 point)

12. I was late for school this morning because I couldn't catch the early bus.  
I couldn't .....
13. My parents don't allow me to use a cell phone.  
I am .....

\* Choose the word the underlined part of which is pronounced differently from that of the others (0,5 point)

14. A. ancient                      B. urgent                      C. talent                      D. event

15. A. modest B. contest C. suggest D. intestine

\* Fill each blank with an appropriate word from the box (Each word can be used only once. There are more words than needed) (1.5 points)
