- A. Some men also face gender inequality.
- B. Gender equality is only about women's rights.
- C. Women and men always receive equal pay for the same work.
- D. Gender inequality only affects people in developing countries.

B. SHORT-ANSWER QUESTIONS (3 points = 0,5 x 1 question)

Read the following passage and answer the questions.

Women in the Workplace

Over the past few decades, women have made significant progress in the workplace. More women now work in fields like science, technology, and business. However, gender inequality still exists. Women are often paid less than men for doing the same job. They are also underrepresented in leadership positions.

One reason for this inequality is the belief that women are less skilled than men in certain fields. Some employers hesitate to advance women because they think women cannot handle pressure or difficult tasks. Additionally, women often face challenges balancing work and family responsibilities.

To promote gender equality, companies should offer equal pay and opportunities to all employees. Employers should judge workers based on their skills and performance, not their gender. Governments can also support gender equality by enforcing laws against discrimination. When women are treated equally, they can contribute more to the economy and society as a whole.

Question 29. Do women always receive the same salary as men?

Answer: _____.

Question 30. Is the following statement true or false?

"Governments have no role in promoting gender equality."

B. SHORT-ANSWER QUESTIONS (3 points = 0,5 x 1 question)

Read the following passage and answer the questions.

Vietnam's Role in the World Trade Organization (WTO)

Vietnam became a member of the World Trade Organization (WTO) in 2007. This was a significant step in Vietnam's economic development. By joining the WTO, Vietnam gained access to larger global markets, allowing the country to export more products such as rice, seafood, and textiles. This helped increase national income and improve living standards for many citizens.

However, being a WTO member also presents challenges. Vietnam must follow international trade rules, which sometimes require the country to reduce import taxes and open its markets to foreign goods. This creates more competition for local businesses. Small businesses in Vietnam may struggle to compete with large foreign companies.

To succeed in the global market, Vietnam must continue improving the quality of its products and ensuring that its businesses operate efficiently. The government should also support small and medium-sized enterprises by offering financial assistance and training programs. With these efforts, Vietnam can strengthen its position in the international market and achieve sustainable economic growth.

Question 29. Did Vietnam join the WTO in 2005?

Answer: _____.

Question 30. Is the following statement **true** or **false**?

"Joining the WTO helped Vietnam export more products."

Answer: _____.

Question 31. The word "significant" in paragraph 1 could be best replaced by i _____.

B. SHORT-ANSWER QUESTIONS (3 points = 0,5 x 1 question)

Read the following passage and answer the questions.

Using Virtual Reality in Education

Technology has brought many changes to education, and one of the most exciting developments is the use of Virtual Reality (VR). VR allows students to enter a computer-generated world where they can interact with different environments. For example, students can explore ancient cities, travel through space, or observe human anatomy in detail—all without leaving their classroom.

One of the main benefits of VR is that it makes learning more engaging and interactive. Students are more likely to remember what they learn because they can experience it visually and practically. It is especially useful for subjects like science, history, and geography.

However, there are also some challenges. VR equipment is expensive, and not all schools can afford it. Additionally, using VR for long periods may cause discomfort or dizziness for some students. To fully benefit from VR, schools should combine it with traditional teaching methods and ensure students take breaks.

Despite the challenges, VR is transforming education and opening new ways for students to learn. With more technological advancements, VR will likely become a common tool in classrooms worldwide.

Question 29. Can Virtual Reality (VR) help students explore ancient cities?

Answer: _____.

Question 30. Is the following statement true or false?

"VR only benefits students learning literature."

Answer: _____.

Question 31. The word "engaging" in paragraph 2 is CLOSEST in meaning to i _____.

Read the following passage about the impact of social media on mental health and mark the letter A, B, C, or D on your answer sheet to indicate the best answer to each of the following questions.

[I] Gender equality means that people of all genders have equal access to opportunities, resources, and rights. [II] Over the years, many societies have made significant progress in reducing gender discrimination. [III] More women now hold leadership positions, pursue higher education, and participate in decision-making processes. [IV]

Despite these improvements, gender inequality still exists in various forms. In some countries, women are paid less than men for the same work. Others face barriers in education or are expected to take on traditional roles at home. Men, too, can experience gender inequality, especially when it comes to parental leave and societal expectations about masculinity.

One key factor in achieving gender equality is education. When both boys and girls receive equal educational opportunities, they can develop skills and knowledge that allow them to contribute equally to society. Governments and organizations worldwide are working to promote policies that support gender equality in schools and workplaces.

Achieving true gender equality requires continuous efforts from individuals, communities, and policymakers. Everyone has a role to play in challenging stereotypes and ensuring equal opportunities for all.

B. SHORT-ANSWER QUESTIONS (3 points = 0,5 x 1 question)

Read the following passage and answer the questions.

Vietnam's Cooperation with UNICEF

UNICEF is a well-known international organization that works to improve the lives of children worldwide. Vietnam has cooperated with UNICEF for many years to ensure that children receive better education, healthcare, and protection. Thanks to this partnership, Vietnam has made remarkable progress in reducing child poverty and improving school attendance rates.

One of the key achievements is providing clean water and proper sanitation to rural areas. This has helped reduce diseases and ensure that children grow up in healthier environments. UNICEF also supports vaccination programs, ensuring that Vietnamese children are protected from dangerous diseases.

Despite these achievements, challenges remain. Some children, especially those in remote and mountainous regions, still lack access to quality education and healthcare. To address this, the Vietnamese government is working closely with UNICEF to expand its projects and reach every child in need.

This cooperation shows that international organizations play a vital role in helping countries like Vietnam develop sustainably. With continued support, Vietnam can achieve even greater progress in ensuring a brighter future for all children.

Question 29. Has Vietnam worked with UNICEF to help children?

Answer: _____.

Question 30. Is the following statement true or false?

B. SHORT-ANSWER QUESTIONS (3 points = 0,5 x 1 question)

Read the following passage and answer the questions.

Women in the Workplace

Over the past few decades, women have made significant progress in the workplace. More women now work in fields like science, technology, and business. However, gender inequality still exists. Women are often paid less than men for doing the same job. They are also underrepresented in leadership positions.

One reason for this inequality is the belief that women are less skilled than men in certain fields. Some employers hesitate to advance women because they think women cannot handle pressure or difficult tasks. Additionally, women often face challenges balancing work and family responsibilities.

To promote gender equality, companies should offer equal pay and opportunities to all employees. Employers should judge workers based on their skills and performance, not their gender. Governments can also support gender equality by enforcing laws against discrimination. When women are treated equally, they can contribute more to the economy and society as a whole.

Question 29. Do women always receive the same salary as men?

B. SHORT-ANSWER QUESTIONS (3 points = 0,5 x 1 question)

Read the following passage and answer the questions.

Vietnam's Role in the World Trade Organization (WTO)

Vietnam became a member of the World Trade Organization (WTO) in 2007. This was a significant step in Vietnam's economic development. By joining the WTO, Vietnam gained access to larger global markets, allowing the country to export more products such as rice, seafood, and textiles. This helped increase national income and improve living standards for many citizens.

However, being a WTO member also presents challenges. Vietnam must follow international trade rules, which sometimes require the country to reduce import taxes and open its markets to foreign goods. This creates more competition for local businesses. Small businesses in Vietnam may struggle to compete with large foreign companies.

To succeed in the global market, Vietnam must continue improving the quality of its products and ensuring that its businesses operate efficiently. The government should also support small and medium-sized enterprises by offering financial assistance and training programs. With these efforts, Vietnam can strengthen its position in the international market and achieve sustainable economic growth.

Question 29. Did Vietnam join the WTO in 2005?

Answer: _____.

Question 30. Is the following statement **true** or **false**?

"Joining the WTO helped Vietnam export more products."

Answer: _____.

Question 31. The word "significant" in paragraph 1 could be best replaced by i _____.

Answer: _____.

Question 32. The word "succeed" in paragraph 3 is **OPPOSITE** in meaning to f _____.

Answer: _____.

Question 33. According to the passage, what should the government do to help small businesses?

Answer: _____.

Question 34. In which paragraph does the writer mention the challenges Vietnam faces as a WTO member?

Answer: _____.

Using Virtual Reality in Education

Technology has brought many changes to education, and one of the most exciting developments is the use of Virtual Reality (VR). VR allows students to enter a computer-generated world where they can interact with different environments. For example, students can explore ancient cities, travel through space, or observe human anatomy in detail—all without leaving their classroom.

One of the main benefits of VR is that it makes learning more engaging and interactive. Students are more likely to remember what they learn because they can experience it visually and practically. It is especially useful for subjects like science, history, and geography.

However, there are also some challenges. VR equipment is expensive, and not all schools can afford it. Additionally, using VR for long periods may cause discomfort or dizziness for some students. To fully benefit from VR, schools should combine it with traditional teaching methods and ensure students take breaks.

Despite the challenges, VR is transforming education and opening new ways for students to learn. With more technological advancements, VR will likely become a common tool in classrooms worldwide.

Question 29. Can Virtual Reality (VR) help students explore ancient cities?

Answer: _____.

Vietnam's Cooperation with UNICEF

UNICEF is a well-known international organization that works to improve the lives of children worldwide. Vietnam has cooperated with UNICEF for many years to ensure that children receive better education, healthcare, and protection. Thanks to this partnership, Vietnam has made remarkable progress in reducing child poverty and improving school attendance rates.

One of the key achievements is providing clean water and proper sanitation to rural areas. This has helped reduce diseases and ensure that children grow up in healthier environments. UNICEF also supports vaccination programs, ensuring that Vietnamese children are protected from dangerous diseases.

Despite these achievements, challenges remain. Some children, especially those in remote and mountainous regions, still lack access to quality education and healthcare. To address this, the Vietnamese government is working closely with UNICEF to expand its projects and reach every child in need.

This cooperation shows that international organizations play a vital role in helping countries like Vietnam develop sustainably. With continued support, Vietnam can achieve even greater progress in ensuring a brighter future for all children.

Women in the Workplace

Handwritten signature

Over the past few decades, women have made significant progress in the workplace. More women now work in fields like science, technology, and business. However, gender inequality still exists. Women are often paid less than men for doing the same job. They are also underrepresented in leadership positions.

One reason for this inequality is the belief that women are less skilled than men in certain fields. Some employers hesitate to advance women because they think women cannot handle pressure or difficult tasks. Additionally, women often face challenges balancing work and family responsibilities.

To promote gender equality, companies should offer equal pay and opportunities to all employees. Employers should judge workers based on their skills and performance, not their gender. Governments can also support gender equality by enforcing laws against discrimination. When women are treated equally, they can contribute more to the economy and society as a whole.

Question 29. Do women always receive the same salary as men?

Answer: No.

Question 30. Is the following statement **true** or **false**?

"Governments have no role in promoting gender equality."

Answer: False.

Question 31. The word "skilled" in paragraph 2 could be best replaced by t ____.

Answer: trained.

Question 32. The word "progress" in paragraph 3 is **CLOSEST** in meaning to i ____.

Answer: improvement.

Question 33. According to the passage, what should companies do to promote gender equality?

Answer: Offer equal pay and opportunities to all employees.

Question 34. In which paragraph does the writer discuss traditional beliefs about women's abilities?

Answer: Paragraph 2.

Vietnam's Role in the World Trade Organization (WTO)

Vietnam became a member of the World Trade Organization (WTO) in 2007. This was a significant step in Vietnam's economic development. By joining the WTO, Vietnam gained access to larger global markets, allowing the country to export more products such as rice, seafood, and textiles. This helped increase national income and improve living standards for many citizens.

However, being a WTO member also presents challenges. Vietnam must follow international trade rules, which sometimes require the country to reduce import taxes and open its markets to foreign goods. This creates more competition for local businesses. Small businesses in Vietnam may struggle to compete with large foreign companies.

To succeed in the global market, Vietnam must continue improving the quality of its products and ensuring that its businesses operate efficiently. The government should also support small and medium-sized enterprises by offering financial assistance and training programs. With these efforts, Vietnam can strengthen its position in the international market and achieve sustainable economic growth.

Question 29. Did Vietnam join the WTO in 2005?

Answer: No.

Question 30. Is the following statement **true** or **false**?

"Joining the WTO helped Vietnam export more products."

Answer: True.

Question 31. The word "significant" in paragraph 1 could be best replaced by i ____.

Answer: important.

Question 32. The word "succeed" in paragraph 3 is **OPPOSITE** in meaning to f ____.

Answer: fail.

Question 33. According to the passage, what should the government do to help small businesses?

Answer: Offer financial assistance and training programs.

Question 34. In which paragraph does the writer mention the challenges Vietnam faces as a WTO member?

Answer: Paragraph 2.

Using Virtual Reality in Education

Technology has brought many changes to education, and one of the most exciting developments is the use of Virtual Reality (VR). VR allows students to enter a computer-generated world where they can interact with different environments. For example, students can explore ancient cities, travel through space, or observe human anatomy in detail—all without leaving their classroom.

One of the main benefits of VR is that it makes learning more engaging and interactive. Students are more likely to remember what they learn because they can experience it visually and practically. It is especially useful for subjects like science, history, and geography.

However, there are also some challenges. VR equipment is expensive, and not all schools can afford it. Additionally, using VR for long periods may cause discomfort or dizziness for some students. To fully benefit from VR, schools should combine it with traditional teaching methods and ensure students take breaks.

Despite the challenges, VR is transforming education and opening new ways for students to learn. With more technological advancements, VR will likely become a common tool in classrooms worldwide.

Question 29. Can Virtual Reality (VR) help students explore ancient cities?

Answer: Yes.

Question 30. Is the following statement true or false?

“VR only benefits students learning literature.”

Answer: False.

Question 31. The word “engaging” in paragraph 2 is CLOSEST in meaning to i ____.

Answer: interesting.

Question 32. The word “transforming” in paragraph 4 could be best replaced by c ____.

Answer: changing.

Question 33. According to the passage, what subjects benefit most from VR?

Answer: Science, history, and geography.

Question 34. In which paragraph does the writer talk about the disadvantages of VR?
