The seas and rivers are too dirty to swim in. There is so much smoke in the air that it is unhealthy to live in many of the world's cities. In one well-known city, for example, poisonous gases from cars pollute the air so much that traffic policemen have to wear oxygen masks. We have cut down so many trees that there are now vast areas of waste-land all over the world. As a result farmers in parts of Africa cannot grow enough to eat. In certain countries in Asia there is too little rice. Moreover, we do not take enough care of the countryside. Wild animals are quickly disappearing. For instant, tigers are rare in India now because we have killed too many for them to survive. However, it isn't enough simply to talk about the problem. We must act now before it is too late to do anything about it. Join us now. Save the Earth. This is too important to ignore. 46. The seas and rivers nowadays A. cannot be swum in B. are less dirty than they used to be C. are dirty enough to swim in D. are contaminated 47. Smoke D. are contaminated 48. In one well-known city, traffic policemen have to wear oxygen masks D. because there are so many cars on the streets D. because there are are so many cars on the streets D. because there are large areas of land that cannot be used B. Because there are large areas of land that cannot be used				1					
44.A. to B. by C. with D. for 45.A. to make B. to making C. by making D. making VI. Read the following passage and choose the best answer: We are all slowly destroying the earth. The seas and rivers are too dirty to swim in. There is so much smoke in the air that it is unhealthy to live in many of the world's cities.
